

Join us on this exclusive study trip to Shanghai, China, and learn about the latest technological innovations with our lecturers and industry experts. We will visit leading firms (NIO, Alibaba, Ant Financial Group, ByteDance) and have the chance to discuss business model innovations, disruptive technologies, green energy, ecosystems, social commerce, AI, and more.

The program is hosted by the Executive Education of the Faculty of Business, Economics, and Informatics at the **University of Zurich**, in collaboration with **Zhejiang University International Business School** in Haining, ranked 6th in Asia and 42nd globally.

Unique learning experience

This Executive Education program combines the latest research results with industry expertise from leading innovative firms. You will learn from seasoned lecturers and renowned industry experts from startups, incubators, established firms, and policymakers in the larger Shanghai area.

Participants will have the chance to discuss case studies, take field trips, gain industry-specific insights, listen to keynotes, and participate in cultural excursions and social programs to extend their international network.

Our participants benefit from an international alumni network, access to think tanks, research institutions, partner firms, industry associations, and policy makers, including ZIBS' leadership team, and C-level speakers.

Target audience:

- Min. 15, max. 25 participants in leadership positions
- Enrolled Executive Education students, alumni of the University of Zurich and externals
- 4 ECTS credits for UZH students; to be discussed with the program director

Date: May 17 to 25, 2025

Location: Shanghai, China

Fees: CHF ~7'900, depending on registrations. Hotels, food, excursions, transportations make up 40% and are included. Excluded are intercontinental flights.
